

## TRC (Tie Rack) BRC (Belt Rack) Installation

Tools Needed: Philips screwdriver

Separate slide assembly by fully extending and depressing the plastic release lever.

Mount outer slide using 2 euro screws (pictured below) starting with the first hole of the slide aligning with the front hole of the partition.

Guide the rack assembly onto the mounted slide.

Picture shown is TRC, BRC installation is same.

Notes: For left hand orientation, remove acorn nuts, rotate faceplate 180 degrees, reinstall acorn nuts.

Euro Screw
